Concrete sprayer is a powerful product in the construction process, helping to speed up and improve the quality of the works. The machine also saves significant human resources.

Origin: Republic of Sec

SPECIFICATION

Parameter	SSB 14	SSB 24
Spraying capacity [m ³ /h]	0,5-3	4-6
Air compressure flow [m ³ /min]	2-5	6-8
Air pressure [Mpa]	0,5-0,6	0,5-0,6
Motor power [kW]	1,5; 1,35/1,87	2,2; 1,87/2,6
Transport hose diameter [mm]	DN = 25,32,40,50	DN = 50
Max moisture	max. 16 mm for DN 40,50 max. 8 mm for DN 25,32	max. 16 mm
Horizontal transport distance[m]	max. 300	max. 300
Vertical transport distance [m]	max. 100	max. 100
Length (mm)	1000	010
width (mm)	780	80
heigh (mm)	980	80
weight (kg)	300	50
