Matit is used for masonry, slab expansion, concrete pavement, warehouse, asphalt cracks.

**Technical features:**

1. Safe design for the user.

2. Easy to use. [Nbsp]

Central heating control system.

4. Temperature equilibrium. [Nbsp] Indirect heating system avoids excessive heating of the mats.

5. The pump system is different pump mode and less maintenance.

6. Heat Resistance: Heat resistance provides various heat regimes up to 270 degrees.

<b>Models</b>	<b>TS500</b>
Size	410x210x250 cm
Weigh	1900 kg
Load height	125 cm
Container material	500 lit
Oil capacity of heat transfer	90 liter
Cooking time	45 ph
Motor	Diesel Yanmar,114 liter
Thermistor	6 m
